We have billed to date a total of \$3,348,425 through October 31, 2017 with anticipated costs from Table 1 estimated at \$341,575.00 based on current information. All of the pending items in Table 2 are budgets at this time and not quoted costs as design and scope are still outstanding. We may want to consider a separate emergency contract for work to the gas lines, gas monitoring and some other items as these are separate from the EMDs. Please let me know if you have any questions herein.

The contract price includes other ancillary costs not originally included, but we are confident, that unless other unforeseen changes occur, we can complete the project within the revised budget. If you have any questions regarding the foregoing, please let me know.

Sincerely,

Walter J. Barnes Electric Co., Inc.

President
